# Post-Graduate Resources

At the core of the unit

You will learn how to do the following:

• Identify additional benefits for AWS re/Start graduates.

• Access AWS re/Start Post-Graduate Resources.

Benefits for AWS re/Start graduates

3

Additional benefits

AWS re/Start offers its graduates additional resources for 6 months to help them continue and reinforce their learning path post-graduation. These resources consist of the following:

- Access to AWS re/Start content and labs

- Post-graduate-specific job-focused materials

- Access to the following:
  - Webinars led by AWS experts (once a month)
  - Study sessions led by AWS experts (once a month)
  - AWS experts who can answer technical questions
  - Instructors (2 hours a week)

As the course comes to its completion, it is time to look at what comes next. Everyone graduating from the AWS re/Start program will receive an email invitation to the AWS re/Start Post-Graduate Resources course within the same Canvas environment that you are using now. The AWS re/Start Post-Graduate Resources course consists of the following resources, which are available to you for 6 months:

- Continuous access to AWS re/Start content and labs, including more labs for additional hands-on practice.
- Post-graduate-specific job-focused materials consisting of specific AWS documentation, AWS webinars led by subject matter experts, AWS whitepapers, AWS workshops, hands-on projects using the sandbox lab environment, and other materials. You will also use these materials on the job to continue expanding your knowledge of AWS services.
- Access to monthly webinars led by AWS experts.
- Access to monthly study sessions led by AWS experts.
- Access to AWS experts who can answer your technical questions.
- Access to instructors for 2 hours a week.

Syllabus

- AWS Core Services

- AWS Security and Identity and Access Management services

- Auto Scaling and Elastic Load Balancers

- AWS: Compute, Storage, Networking, and Databases

- AWS Lambda

- Amazon DynamoDB

- AWS Elastic Beanstalk

- AWS Cloud9

- Amazon Elastic Container Service (Amazon ECS) and Dockers

- AWS Migrations

- AWS CloudFormation

- DevOps, continuous integration and continuous delivery (CI/CD), and Developer Tools

The post-graduate resources cover numerous AWS topics.

Accessing post-graduate resources

6

Accessing AWS re/Start Post-Graduate Resources

- AWS re/Start will email graduates an invitation through Canvas to join the AWS re/Start Post-Graduate Resources environment.

- Graduates have up to 30 days to accept the invitation to join the AWS re/Start Post-Graduate Resources environment in Canvas.

- Once graduates join, they will have access to the post-graduate resources for 6 months.

Ensure that you accept the invitation to the AWS re/Start Post-Graduate Resources within 30 days. You will have access to these resources in Canvas for 6 months.

The following are the answers to the FAQs:
- Will I receive a voucher for any associate-level certifications?
  No. An associate-level certification is suitable for individuals with significant on-the-job experience (12–18 months). The post-graduate resources should be considered a support to individuals starting their work journey, so these materials are not meant to be preparation material for an associate-level certification.
- Will I receive a badge for completing the AWS re/Start post-graduate resources?
  No. AWS re/Start is not offering a badge at the end of the AWS re/Start post-graduate resources.
- Can I still join the AWS re/Start Post-Graduate Resources if I am employed?
  Yes. Graduates who are employed can join the AWS re/Start Post-Graduate Resources. AWS re/Start recommends that graduates dedicate 1–2 hours per day in order to progress.
- How much time should graduates plan to spend in the AWS re/Start Post-Graduate Resources?
  To use the program to its full extent, graduates should plan to dedicate 1–2 hours of study and practice a day and to participate actively in the live sessions for 1–2 hours a week.
- What are the benefits for AWS re/Start graduates?
  AWS will continue to support graduates through access to the post-graduate resources for a period of 6 months to help them build cloud skills and advance their careers. AWS re/Start graduates will have access to a hands-on experience, study materials, and guidance from experts and instructors as they continue to build their cloud skills and advance in their careers.
- How long are the AWS post-graduate resources available to AWS re/Start graduates?
  After graduation, graduates have 30 days to decide whether they want to access the post-graduate resources. The resources are then available for 6 months from the date that the graduates accept the invitation to join.
